

Old Sneddon Street Paisley Network Rail Business Space Arch inspection Occupied Property

Commercial Property Maintenance Services Ltd

Property before work commenced.

Fylon sheeting fitted to the Upper roof area to prevent water ingress which will prevent future problems to the tenant.

ARCH STRIP OUT AND REFURBISH

As part of the Structural Engineers survey to railway arches. This work was awarded to CPMS on a six week programme on a tenanted property, to strip the unit back to the brick walls for completion of the survey. Then re-instate for the tenants full commercial use.

The work was completed on time and budget with no issues.

Front counter area after hand-back.
