Damaged fence & overgrown vegetation.

Completed fence & overgrown vegetation cut back.

## PLATFORM FENCING POST AND WELDMESH

As part of the Network Rail Reactive Maintenance Works, CPMS were asked to attend Dunbar Station and carry out De-vegetation and Fence repairs at the rear of Platform 1.

The works comprised of the following elements:-

- Set up safe system of works on the rear of the platform.
- Cut back hedge/bushes and trees at rear of fence to allow access to fence.
- Recover and prepare existing posts & weld mesh fence for reuse.
- Reset fence posts, retention line wires and re-secure weldmesh fence.
- Clear up all cuttings and leave area in clean and tidy manner.
- Works completed on time and budget, with no issues.
